Projects

Restaurant POS Application

- The Application is a seamless and efficient system designed to streamline restaurant operations. It enhances order management, billing and ensuring a smooth and hassle-free experience for both staff and customers.
- Quick and easy order placement with real-time updates, Manage dine-in, takeaway, and delivery orders efficiently.
- Instant bill printing with customizable invoice formats.
- Real-time sales insights with interactive graphs and Inventory management with stock alerts and tracking.

Construction Website

- The Application is a **dynamic and efficient** platform designed to **streamline real-time construction operations** while offering a seamless experience for clients and service providers. It simplifies **consultation booking, service management, and quotation generation**, ensuring a hassle-free process for all construction-related needs.
- Real-Time Construction Operations like Book a **free consultation** for construction details & expert guidance and Get instant **quotations** for full-scale building construction.
- Wide range of services including like Doors and Windows Installation, False Ceiling and Interior works, Painting and water proofing, Electrical, Plumbing, Flooring and Tiling Services.
- Generate **detailed quotations** for individual services or full construction projects and Transparent pricing for better decision-making.

Palamuru biosciences

- The Application is a **powerful digital solution** designed to streamline **laboratory operations**, ensuring accurate and efficient management of drug and blood sample testing for animals.
- **Laboratory Operations Management** like **Insert and track drug testing** data efficiently and **Manage blood sample testing**, including quantity and timing records.
- Comprehensive Data Storage & Tracking like Securely **store and organize** all test results in a structured software directory and Monitor and **track testing schedules** with automated logs.
- Real-Time Data Access & Management like Easy **search and retrieval** of test records for improved efficiency and Ensure compliance with **accurate documentation** and data integrity.

Jobby App – Smart Job Search & Filtering Platform

- The Application is a **comprehensive job management platform** designed to simplify job searching by offering **advanced filtering and detailed job insights**, helping users find the right opportunities effortlessly.
- View and explore a **wide range of job opportunities** in various industries and Get **detailed job descriptions**, including roles, responsibilities, and requirements.
- Filter jobs based on salary packages, experience level, and job type, Find the **best-matching roles** based on preferences and skills and Seamless navigation to **apply for jobs directly** through the platform.

Education

Nxtwave Disruptive Technologies <i>Full Stack Development</i>	2021-2022
Swamy vivekananda degree and pg college <i>Bsc - MECs (Computer science and Electronics)</i>	2016-2020

Other Experiences and Achievements

- CSIT Software Training Center**
- Trained aspiring developers in **ReactJS, HTML, CSS, and Bootstrap** at **CSIT Software Training Centre**, providing hands-on coding experience and mentoring to build real-world projects.
 - Recognized by **CSIT Software Training Centre** for exceptional **teaching skills**, providing well-structured assignments and practical training. Appreciated for making **frontend development easy to learn**, helping students confidently build real-world websites.
